Integrity--the highest selling young sire in the breed this past year, has generated a tremendously consistent set of quality calves. Fall 2005 saw sale after sale topped by fancy, balanced Integrity-sired heifers--why? Because people like 'em! Data on over 300 calves has Integrity marked as a calving ease bull, and his first ultrasound records indicate a big advantage for IMF. His conception rate is super and as an individual, Integrity has matured into a tank-wide-based, thick, deep and structurally flawless--traits that he passes on to his calves. He moderates frame size and without a doubt, has added major value to cattle from coast to coast--his \$B of +48.27 is just icing on the cake. For easily-born, phenotypically-stunning cattle with extra value--Integrity makes your choice easy!

Outlook is programmed to make BIG things happen. This Future Direction son has matured into a powerful individual with a tremendous top and hip, plus he's a little larger than many of his 1/2 brothers at nearly 7 for frame. Out of a 1407 daughter, he writes super numbers for both growth and carcass and grew to an impressive 1456 lbs. at one year. Outlook ranks in the top 10% for \$B and has the profile and performance to make positive changes in any cow herd.
