Preeminent is the result of mating the #1 REA bull to the #1 IMF cow of the Angus breed. The results are cool--he excelled for both traits, including his 17.0 sq. in. REA. His EPDs for IMF and REA rank him well into the top of the breed. Moderate in size, Preeminent can reduce frame on the big ones while adding significant shape and carcass quality. Low for BW and high for growth (top 15% YW), his thick profile includes a deep ample rib design with flexible, correct legs and feet. Preeminent offers 'the shape of things to come' with low birth, high growth and unmatched carcass traits in a size that's under control. The term 'value-added' hits this Lot 1 bull from GAR straight on!

4612

7AN259

- +104 for YW and +54.54 \$B
- Powerful Profile and Pedigree

Rito 4612 will impress you on paper, and phenotypically, he's powerful as well with more than enough rib and flank depth and well-above average muscle dimension. 4612 is bred to be good--he was the high-selling bull in the 2005 Wehrmann Bull Sale in VA and with a +54 for WW and +104 for YW, his growth figures are impressive. Equally impressive are his ultrasound ratios--154 for IMF and 107 for REA in a contemporary group of 89. Nearly an outcross, 4612 can compliment cows that need a boost from growth and quality grade.
