Resource is a new addition from Connealy Angus with a balanced EPD slate and a touch more size than many Future Direction sons. He was below average for BW (96) and above for WW (105) and YW (107) and beat the averages in a huge contemporary group (347 head) for both IMF and REA. Resource offers solid numbers for growth with low BW and is a great candidate for value-based breeding schemes.

Grant is a 208 son that performed like a champ at both Weaning and Yearling. He ratioed 110 for WW and 113 for YW in a contemporary group of over 350 bulls at Connealy's. With a spread of +1.2 to +96, he offers talent as a heifer bull with tremendous performance. His REA ranks him in the top 15%, while his YW places him in the top 5%. Grant can extend his sire's legacy of siring useful, good-doing cattle that perform on the ranch and on the rail.
