% Rank	10			2	15	10						

Heavenly is a proven low-birth, high-maternal success in many heifer programs across the country. He excels for CED and BW (top 10% for each) and is a verified breed leader for milk, ranking in the top 2%. Heavenly can improve docility, structure and fleshing ability and sires calves that are moderate for frame size. His daughter are attractive with functional, well-designed udders. Heavenly's highly-reliable EPD slate has made him a safe choice for many exotic heifer programs.

% Rank	25					20				10		

Duke keeps birth weights to a minimum, adds above-average growth and designs cattle with longevity and balance. His genetics for higher levels of marbling are solid as is his ability to sire cattle with a tremendous structure. Use Duke to sire cattle that are shapely, easily-born and fast-growing with an extra shot of carcass quality bred-in.

Ho Ho sires enough extra shape to give his calves a thick, robust look. For fast growth to weaning, Ho Ho shines, ranking in the top 20%. He patterns his calves with impressive length and more thickness than average and his early daughter information finds him in the top 20% of the breed for milk. Enhancements for growth, milk and muscle are all available from Ho Ho.
