

NEED MORE HEIFERS?

- ...from Top-100 TPI™ sires?
- ...from high-milk sires?
- ...from extreme-components sires?
- ...from sires with top health traits?
- ...from udder and feet & leg specialists?
- ...from high-reliability sires?

It's Possible!

Select Sires now provides highly proven *gender*SELECTed sires. No other source for sexed semen in the industry offers the experience and research that backs our growing *gender*SELECTed Holstein, Jersey and Brown Swiss lineup. We understand the value of a heifer calf to your bottom line, and since 2001 we've been working to make *gender*SELECTed sires a reality. After extensive field trials, the results are in and the facts prove our technology can sex-sort sperm with 90 percent purity. Wouldn't you be tickled pink to get 9 heifers out of every 10 calves? Producers who pay strict attention to the details of semen handling and timing of inseminations in well-managed virgin heifers are pleased with the results.

Turn to Select Sires...your experienced source...for *gender*SELECTed semen!

More research...more results...more selection...more heifers!

Ask your Select Sires Representative for all the facts!
