

GRAZEPRO[®]

Helping you maximize grazing success

GrazePRO is designed for producers who utilize an intensive grass-based production system and want to improve profitability.

Targeting the genetics important in grass-based systems

GrazePRO sires transmit greater longevity, better mobility, moderate stature, high component yields and excellent fertility.

Helping you keep an eye on DPR and SCS

Particular emphasis is placed on health and fitness traits, including Daughter Pregnancy Rate (DPR) and Somatic Cell Score (SCS).

*Denotes NxGEN® Sires. GrazingPRO and NxGEN are registered trademarks of Select Sires Inc. GForce, GForce+ and gender SELECTED are trademarks of Select Sires Inc. All gender SELECTED semen is processed with Ultraplus™ technology. Ultraplus is a trademark of STGen LLC. All Jersey bulls are JH1F, except PARKS-PP are JH1C. OLLYVER and KELSO are MW. All bulls qualify for semen export to Canada. Limitations and Conditions of Sale: gender SELECTED semen shall be used only for the single insemination of one female bovine during natural ovulation with the intent to produce a single offspring unless specifically approved on an individual customer basis by Sexing Technologies in writing. As a condition of purchasing gender SELECTED semen, the purchaser agrees that gender SELECTED semen will not be reverse sorted or re-sorted unless specifically permitted, in advance, on a case-by-case basis by Select Sires in writing. Select Sires intends to monitor the use of the gender SELECTED semen and vigorously enforce these restrictions on use. Please see <http://www.selectsires.com/designations/genderselected.html> for additional details. 7 = Select Sires, 14 and 614 = Accelerated Genetics, 250 = Generations; 9 = Universal Marketing Code
