

# MASTITISRESISTANTPRO<sup>®</sup>

## Avoid costly mastitis cases and save money

A case of clinical mastitis in the first 30 days of lactation can result in an economic loss of \$444 (\$128 in direct costs and \$316 in indirect costs), including loss of future milk production, premature culling and replacement loss, and future reproductive loss<sup>1</sup>.

## Reduce waste milk and keep valuable replacements in the herd

Mastitis is a leading reason for voluntary culling, especially in cows beyond the first lactation. The most common clinical disease in cows reported by producers is mastitis (24.8 percent of cows)<sup>2</sup>. Fewer mastitis cases means less discarded milk and reduced treatment cost in all management systems.

## Lower antimicrobial use

Over twenty percent of all lactating dairy cows receive antibiotic therapy for clinical mastitis each year and many cows receive intramammary infusions as they go dry<sup>2</sup>. Improving genetic merit for mastitis resistance will reduce use of antimicrobials.

## A genetic solution to mastitis resistance

Sires that excel in multiple indicators of mastitis resistance are more likely to deliver genetic improvement. Mastitis ResistantPRO uses a combination of CDCB Mastitis Resistance, CDCB Somatic Cell Score (SCS) and Zoetis Mastitis Resistance genomic evaluations.

All Jerseys are JH1F, except JX CURVE {6}-P and SIMPLE MAN-P are JH1C. JX WYNDDHAM {5} is JNSC. WAR GEAR, FRAMPTON, TALLET, OLLYVER and KELSO are carriers for MW. All bulls qualify for semen export to Canada except BONAPPETIT and COBOT. 7 = Select Sires; 14 and 614 = Accelerated Genetics; 250 = GenerVations; 9 = Universal Marketing Code; 585 = Very High Purity Semen. Limitations and Conditions of Sale: gender SELECTED semen shall be used only for the single insemination of one female bovine during natural ovulation with the intent to produce a single offspring unless specifically approved on an individual customer basis by Sexing Technologies in writing. As a condition of purchasing gender SELECTED semen, the purchaser agrees that gender SELECTED semen will not be reverse sorted or re-sorted unless specifically permitted, in advance, on a case-by-case basis by Select Sires in writing. Select Sires intends to monitor the use of the gender SELECTED semen and vigorously enforce these restrictions on use. Please see <http://www.selectsires.com/designations/genderselected.html> for additional details. When you purchase semen of a bull carrying the Mastitis ResistantPRO designation, the resulting offspring will likely carry characteristics listed for this designation. To order product, contact: Select Sires, Inc., 11740 U.S. 42 North, Plain City, Ohio 43064 or by phone: (614) 873-4683
