Product listed is manufactured by Agrarian Marketing Corporation® a registered trademark of Agrarian Marketing Corporation, Middlebury, IN. Product listed is merely distributed by Select Sires Inc. and manufactured or processed by the company indicated. All claims, representations, and warranties, expressed or implied, are made only by the manufacturer and not by Select Sires Inc. Updated: August 2017

## ENHANCE HIGH ENERGY AND HIGH PROTEIN RATIONS

Select BioCycle Plus Ultimate™ is designed for high energy, high protein rations, typically found in lush grass and late cuttings of haylage. Rations containing high levels of these forages are candidates to utilize Ultimate. Ultimate is formulated to maximize rumen microbe populations providing a more thorough utilization of protein in the ration. An increase in microbial protein results in an increase in milk protein and milk. An additional benefit of improved protein utilization within the rumen is a reduction of milk urea nitrogen (MUN) levels. MUN levels in excess of 16 mg/dl have shown to have a negative impact on pregnancy rates.

Ultimate contains BioCycle Plus as its base ingredient which offers immune system improvement and assistance against mold-challenged feeds. In addition to the BioCycle Plus base, Ultimate contains increased levels of enzyme potency and microbial sugars. Ultimate adds an additional enzyme, pectinase, that break down pectins (complex carbohydrates) found in plants. Rumen-protected forms of copper, zinc, manganese and cobalt have also been added.

Herds that are experiencing MUN levels greater than 16, along with more than usual events of early embryonic death, should consider including Ultimate in the ration.

### USE DIRECTIONS

Mix Select BioCycle Plus Ultimate Concentrate into dairy feeds at a rate of one half (½) ounce (14g) per head, per day. If mixing twice per day, dose must be split between mixes and contained in all feed.

### PACKAGING

50 lb. box (#9094)

### STABILITY

Stable for two years. Store in cool, dry place.

### INGREDIENTS

Montmorillonite clay, Calcium carbonate, Silicon Dioxide, Yucca Schidigera, Sugars, Malic Acid, *Saccharomyces cerevisiae* (active dry yeast), Dried yeast culture, Dried *Aspergillus oryzae* fermentation extract, Dried *Aspergillus niger* fermentation extract, Potassium Iodide, Tartaric Acid, Dried egg product, Choline Chloride, Citric Acid, Benzoic Acid, Dried *Bacillus subtilis* fermentation product, and Niacin.

### GUARANTEED ANALYSIS

(per 1/2 ounce dose)

Protease ( <i>Aspergillus oryzae</i> ) .....	3,500 ug of protein hydrolyzed/minute/0.5oz
Hemicellulase ( <i>Trichoderma reesei</i> ).....	1,500 ug of hemicellulose broken-down/minute/0.5oz
Amylase ( <i>Aspergillus oryzae</i> ).....	750 ug of starch hydrolyzed/minute/0.5oz
Cellulase ( <i>Aspergillus reesei</i> ).....	625 ug of cellulose broken-down/minute/0.5oz
Bacillus Subtilis (Min).....	50 x 10 <sup>6</sup> cfu/g
